CHALLENGE: American Indian Center (AIC) needed to transform an old, rundown 1920's banquet room into a multi-purpose gymnasium and theater. The space had original wiring and an old breaker room that had to be brought up-to-date along with specific lighting requirements to accommodate everything from archery and basketball to theater productions.

SOLUTION: Tenesis, in a partnership with AIC and The Chicago Blackhawks, was able meet all of the criteria and create a great place for all activities and everyone to enjoy.

"I highly recommend Greg and his professional team from Tenesis. Being a Native American Chippewa himself, Greg understood the importance of bringing our community together when he and his team provided families and children a safer place to play and be active indoors."
